

This Month's Silver Apple Award Goes To...

This March we are awarding two employees with the *Silver Apple award* for their exceptional work. The dynamic team at Blueberry Hill Elementary has been providing kids with a fun and inviting lunch experience. The lead, Laurie Goulet is so positive and creative that she has been described by the principal as “going above and beyond”. She and Tiffany Darling interact with the children so warmly. Their hard work to provide a great lunch, combined with the friendly atmosphere they embody, makes them well deserving of this award. They continuously come up with ideas to make the lunch program fun. They play games, add their personal touch to decorating, and work effectively together to create and present our nutritious lunches.

Tiffany Darling moved from Center Elementary School to Blueberry Hill Elementary school earlier this year. Laurie Goulet started working for us this October at Longmeadow High School. She moved to Blueberry Hill this November. Laurie has expressed to me how much she loves working with the children. I could not be happier that this team has come together at Blueberry Hill. It is exciting to see what they are doing there.
